

Partner with us as a MATH CHAMPION and multiply your impact!

Be a leader in the math movement this year by partnering with EIM as a Math Champion. Your support as a Math Champion will help us share the joy of math with kids, teachers and families, and celebrate math as fun and engaging.

How to partner with us as a Math Champion:

- Host a table of 10 at *Make a Move for Math*
- Recruit a minimum of four people to purchase tickets for *Make a Move for Math*, who identify you as their “Math Champion” when they register to attend the event

Invite friends, colleagues, and family to join you for an evening of fine wine and fantastic food while we celebrate EIM and contribute to our mission! **And as a thank you to Math Champions**, if you recruit 4-10 guests to join you at the event you will be entered into a drawing to win a special gift – just an added bonus for supporting an organization you already know and love!
